

## **MEDICATION AT SCHOOL**

The administration of medication is done on a voluntary basis under the direction of the Principal. In all cases of a student bringing medicine to school, the Principal or their delegate, must be informed.

All students requiring medication must have all medical documentation completed in full by parents/ caregiver, prior to any medication being administered to students. These documents are available from the Administration Office upon request.

**It is imperative that the school remain fully informed on any medical condition  
and emergency contact details are current at all times.**

***At Cardiff Public School our core principles are  
Harmony, Honesty, Care, Respect and Achievement***
